MICHAEL: Hi I'm Michael D'Avolio.

MARGIE: and I'm Margie Aliprandi Thanks for giving a couple minutes of your time.

We are in the midst of the greatest shift in human consciousness ever regarding our personal health, environmental awareness and green living. Our company is at the forefront of this trend, providing YOU with a tremendous financial opportunity to own a business that makes a BIG difference.

We're going to make a basic assumption. Before you left the house today, you took a shower, shampooed your hair, brushed your teeth, put on deodorant, maybe took a few vitamins. And at some point during the week, you or someone in your household washed some dishes, did some laundry....you get the picture. Where'd you buy all the products you used? You probably had to make one of your favorite trips to the store. You bought all of that stuff and...you're going to have to buy it again and again. Do you realize that those same purchases could be making you money, saving you money on your taxes and enhancing the health and well-being of you, your family and your environment?

So how does that work? It's as simple as redirecting your purchases. Buy from your own store, so to speak, instead of your local big box store and then show others how to do the same. Let's face it, you're buying these products anyway. It's money you - and those around you - are already spending. Does the place where you shop send you a paycheck?

MICHAEL: So here's what we're about. Since 1987, Neways International has been enhancing the health and financial well-being of hundreds of thousands of families around the world. We're a company producing 700 million in annual sales in 29 countries. We are financially backed by the enormous endowment funds of Harvard, Yale, Stanford, Princeton and MIT. Talk about credibility in the business world WOW. We were green before green was cool, when no one was looking....because it was the right thing to do. We are uniquely positioned for this perfect moment. We have hundreds of products -- things you use every day -- every one of them formulated to be safe and environmentally friendly.

Now, Just because these products are safer, don't think you'll be compromising quality or performance. In fact, it's just the opposite. Neways employs the best scientific minds available to painstakingly develop, test and formulate every Neways product. Nature creates it; science refines it; Neways delivers it. In fact, we deliver it right to your doorstep, and this saves you money on gas.

Let me ask you another question....Are you satisfied with your current employment situation? Are you getting rich working for someone else? When do you want to retire, sooner rather than later? Will you have sufficient funds to retire? Do you want less or more money when you retire? Where's the money going to come from? What's your plan?

MARGIE: If you're not satisfied and you're ready to make a change, then Neways can provide you with the potential to make phenomenal income. Last year alone, Neways paid out over 300-million dollars in commissions to people just like you and me. To date, Neways has created over two thousand millionaires. Most of this business has occurred in international markets. Now the company focus is back here - where it all began in North America.

So, to recap:

You and others switch brands,
You go green with Neways safe and environment friendly products
and you put more green in your wallet.

Healthy body, Healthy home, Healthy bank account, Financial freedom

Sound do-able?
